

LEADERS' COACHING MASTERCLASS

Coaching - guiding others to find solutions for themselves rather than giving them the answers.

'Our most common tools of influence are still questioning, listening, observation and reflection.'

The Coaching Manual –Julie Starr

By using the principles of the GROW model, Heather will take you through some practical steps for ensuring that you remember a simple and effective tool to enhance your own leadership style.

The session will give some of the key skills of coaching as well as creating space for you to practice with other leaders and get evaluative feedback – so come prepared to get involved! The best way to be a better coach is to coach and to be coached!

PLEASE BOOK EARLY – NUMBERS ARE LIMITED
